

MORE NEWSPRINT, LESS FOOTPRINT.

Since 2002, the amount of Irish newsprint being recycled has increased from 28% to 63%.

This has saved 75,000 tonnes of newsprint from going to landfill, and almost halved the amount of carbon dioxide being produced.

We're glad that our carbon footprint is getting smaller.

And we're aiming to recycle 100% of our newsprint.

Please help us, and the environment, by recycling your old newspapers.

RECYCLE YOUR NEWSPAPERS
